PROGRAM OVERVIEW

Birthplace of the modern world, Manchester was the world’s first industrial city, and it has left a deep imprint on sociology, politics, economics, literature, and art. Through walking tours and visits to historical sites, and through readings by Shelley, Gaskell, Engels, and Orwell, we will trace the progress of industrialization and sociopolitical reform and evaluate literature’s power as a tool for social change. Highlights will include visits to the People’s History Museum, Museum of Science and Industry, the Manchester Art Gallery, and Quarry Bank Mill, plus the Liverpool Museum and Slavery Museum in nearby Liverpool.
Educating to achieve a just, healthy, sustainable and peaceful world, both locally and globally.
